## OTHER ORAL-B MODELS

More advanced (and expensive) models exist.  
*Buuut* they are **NOT** more powerful.

They just have extra features... for teeth.  
These features are not relevant for self-pleasure.

For example:

- Oral-B Pro 1000 & 2000 – pressure sensor
- Oral-B Pro 3000 – pressure sensor + polish mode to remove stains
- Oral-B Pro 4000 – pressure sensor + polish mode to remove stains + smart display
- Oral-B Pro 5000 – pressure sensor + polish mode to remove stains + smart display + wireless smart guide

Oral-B likes to give fancy names to their products.

Don't get confused by this. → **ALL ORAL-B toothbrushes are compatible with the Viberry –EXCEPT FOR THE SONIC ONES & CROSSACTION POWER**

## WHAT'S THE 30-SECOND ORGASM™ ?

As I've mentioned before, I call the Oral B Pro 600 **my 30-Second Orgasm Wizard**.

Because the brain learns to orgasm faster by using it.

**The reason** is the timer— which is a slight change in vibration.

Your brain **feels** this mild change

**registers** it into your biological clock and  
**sends a command to your body** to climax before  
the 30-second zap.

This learning process is called classical conditioning, and psychologists use it to cure people suffering from fear of heights.

The mild zap is not powerful enough to mess with your orgasm  
**B-U-T...in time...**

**it will make you cum faster.**

## BUT WAIT! WHY WOULD YOU WANT TO ORGASM FASTER ?

To orgasm fast doesn't seem such a big deal, especially—if like me—you like to masturbate for hours ;-)

**HOWEVER,  
IT IS A VERY BIG DEAL DURING SEX.**

By climaxing quickly you will **easily reach an orgasm**, or even have multiple ones, **during the usual 5-10 minutes of love making.**

**The result** is not only a more orgasmic life but also a deeper relationship with your partner.

Better health.

More fun.

Less stress.

Lots of love.

## STAY HOT

Sorry if I got too excited about something as *insignificant* as a vibrator.

I don't want to sound like an infomercial, but I have to. This is life-changing!

**To me, it's not just a vibrator.**

It's **discovering that I can orgasm faster** than any man.  
It's **boosting my confidence every day**.  
It's **empowering myself** to take control over my orgasms & life.

**Don't be too surprised** if you realize that once you start orgasming you'll become **more focused, more determined, & less fearful**.

Orgasms, especially fast and multiple ones, are a **very very powerful thing**.

Don't miss out ;),
